## Authorized Summary to the BESA seal of approval P71 Leela Quantum Capsule-H.E.A.L.

The BESA tests carried out by IFVBESA for the energetic and physical effectiveness of the "Leela Q capsule-H.E.A.L." Have clearly shown that it is able to neutralize or harmonize biologically significant stress factors from toxic information carriers at the acupuncture points of the test subjects. Using the bioenergetic system analysis, the effects of the above-mentioned stress factors on the test person, his meridian system and his energetic-biological control circuits were questioned and systemically tested on the energetic level. The measurement data and their key figures impressively confirm, on the one hand, the stresses that the tested ampoules have on the human organism, and, on the other hand, illustrate how the deregulating energies are converted into biocompatible energies after using the "Leela Q Capsule-H.E.A.L."

From a holistic point of view, it can be assumed that the positive effect on the test person will also affect other people. That the positive influence exerted by the "Leela Quantum Capsule-H.E.A.L." Is actually possible with high precision is clearly shown by this test using the BESA-BEFORE-AFTER comparison. All measured values improved significantly from the mostly 100 percent blue measuring range to the green mostly 50-point range (scale value), i.e. the range of the optimal measured values.

**Result:** The test person was brought into contact with severe toxic stress factors during the BESA AFTER test. In contrast to the BEFORE tests, in which the "Leela Quantum Capsule H.E.A.L." Was not used, positive measurement results were found throughout, which indicate that neutralization or harmonization has taken place. The regulation dynamics developed into an optimal effective range.

Durch den Nachweis der energetischen Wirksamkeit der „Leela Quantum Kapsel H.E.A.L.“ im Projekt P71 wurden die Voraussetzungen für den Erhalt eines BESA Gütesiegels mit 5 Sternen durch den Internationalen Fachverband für BESA erfüllt.
