## **Authorized summary**

### **Project P74 for BESA Seal of Approval**

# **„Leela Quantum DNA & Cell Protector Card“**

The BESA tests carried out by IFVBESA in the detailed projects P74 1.0 to 4.0 on the energy-informative and physical effectiveness of the test object, the "Leela Quantum DNA & Cell Protector Card" have clearly shown that this test object is able to neutralize or harmonize biologically significant stress factors from corona mRNA and vector-based vaccines in the meridians or at the acupuncture points of the test persons. Via the bioenergy informative system analysis, the effect of the above mentioned stress factors on the test persons, their meridian system and their energetic-biological control circuits was questioned and systemically tested on the energetic level. The BESA tests BEFORE - AFTER show significant changes at the tested acupuncture points on the meridian system of the test persons. The measurement data as well as their key figures impressively confirm on the one hand the stresses caused by the tested stress factors on the human organism, and on the other hand clarify how the deregulating energies are transformed into body-immanent and biocompatible energies after application of the test object, the "Leela Quantum DNA & Cell Protector Card".

Viewed holistically, it may be assumed that the positive effect on the test subjects also occurs with other people. That the positive influence by the test object of the "Leela Quantum DNA & Cell Protector Card" is actually possible with high precision is clearly shown by this test through the BESA BEFORE-AFTER comparison. All measured values improved significantly from the mostly 100-percent blue measuring range to the green mostly 50-second range (scale value), i.e. the range of optimal measured values.

#### **Result:**

Result: During the BESA AFTER testing, the test subjects were brought into contact with correspondingly incriminating contents of Corona vaccines in the respective detailed projects. In contrast to the BESA BEFORE tests, in which the test object of the "Leela Quantum DNA & Cell Protector Card" was not used, harmonizing measurement results were found throughout, indicating that neutralization had taken place. The regulatory dynamics developed into an optimal effective range.

By proving the energetic effectiveness of the "Leela Quantum DNA & Cell Protector Card" of the company Leela Quantum Tech LLC, the requirement for obtaining the BESA seal of approval with 5 stars by the International Professional Association for BESA was met.
