## Authorized Summary

### Project P75 1.0 to the BESA seal of approval „Leela Quantum Infinity Bloc“

The BESA tests carried out by IFVBESA on the energetic and physical effectiveness of the test object, the "Leela Quantum Infinity Bloc", have clearly shown that this test object is able to neutralize or harmonize biologically significant stress factors at the acupuncture points of the animal test subjects. Via the bioenergy-informative system analysis, the effect of the above-mentioned stress factors on the animal test subjects, their meridian systems and their energy-informative-biological control circuits was scrutinized and systemically tested on the energy-informative level. The BESA tests BEFORE - AFTER show significant

changes at the tested acupuncture points at the meridian system of the test person (animals). The measurement data as well as their key figures confirm on the one hand the stresses that the tested factors have on the human organism, and on the other hand they clarify how after the application of the test object, the "Leela Quantum Infinity Bloc", the deregulating energies are transformed into body-immanent and biocompatible energies.

From a holistic point of view, it can be assumed that the positive effect on the test subjects - animals also occurs in other animals. That the positive influence by the "Leela Quantum Infinity Bloc" with high precision is actually possible, is clearly shown by this test by the BESA-BEFORE-AFTER comparison against 8 different animals (test persons). All measured values improved significantly from the mostly 100% blue measuring range to the green, mostly 50 Skt. range (Skt = scale value), i.e. the range of optimal measured values.

**result:** The test subjects - animals were associated with the test object in the BESA AFTER testing. In contrast to the BESA BEFORE tests, in which the test object, the "Leela Quantum Infinity Bloc" was not used, consistently positive measurement results were found, which indicate that neutralization or harmonization has taken place. This means: The regulation dynamics developed into an optimal effective range.

By demonstrating the energy informative effectiveness of the test object "Leela Quantum Infinity Bloc" towards pets in this project P75 1.0, the requirements for obtaining the BESA seal of approval with 5 stars by the International Professional Association for BESA were met.
